

It's time to cocoon...

... and retreat to the indoors as summer turns to fall. Nesting instincts begin to emerge once again, with a need for cosy layers – both in your wardrobe and your home décor. Rich woods, soft leathers, and deep colours and patterns come to the foreground as summer brights fade.

Start by designing the bedroom of your dreams. **Interiors Furniture Galleries** offers an elegant Aristocrat Collection, featuring an American hardwood bed with a rich mahogany veneer in a cocoa brown finish. But a great night's sleep starts at the foundation – a quality mattress set. **The Brick Mattress Store** offers a wide variety of brands and options to suit your unique needs. Their sleep experts are also trained to find your sleep solutions.

Getting back to work or school is easier when you create a stylish yet studious space with furnishings from **Bassett Home Furnishings**. The Louis Philippe cherry pedestal desk, complemented with a leather-and-wood office chair and Bryson floor clock, is perfect for hard-working minds. Also, keep your feet warm with the Jaunty Rug – a luxurious and practical addition to any home office.

As your days wind down, retire to your favourite Bradford armchair, rest your feet on the ottoman, and curl up with a great book by the toasty fireplace. **La-Z-Boy Furniture Galleries** offers a wide variety of seating styles, in leather (Performance, Nubuck or Authentic) and other fabric choices to complement your décor.

Visit these great stores, and more, at **The Village at Vaughan Mills** and **Satisfy Your Sense of Style**.

- Paola Taffo, Home Décor Expert
